PURCHASE AGREEMENT ADDENDUM

The undersigned parties to the Purchase Agreement effective _____ by and between Cricket Media Inc. ("Seller") and _____ ("Purchaser"), for the sale of certain "Assigned Royalties", hereby further agree as follows:

1. **Definitions**:

"Assigned Royalties" means the ACLSA Royalties and Additional Royalties.

"ACLSA Royalties" means 100% of royalties payable to Seller pursuant to the ACLSA for license of the Existing Content and 75% of royalties payable to Seller pursuant to the ACLSA for license of the New Content.

"ACLSA" means the Annual Copyright License for Student Assessment agreement between Seller and Copyright Clearance Center, Inc. ("CCC").

"Content" means the Existing Content and New Content.

"Existing Content" means all content published by Seller as of the Effective Date and listed in Attachment A, a digital copy of which will be placed in escrow as specified in Section 3 below.

"New Content" means all content published by Seller that is not listed in Attachment A.

"Assessment Market" means the creation and publishing of federally mandated standardized student assessment tests to be licensed on an annual basis and administered in the United States.

"Additional Royalties" means the percentages due to the Purchaser as laid out in Sections 2 and 3 below, of (i) royalties payable from third parties other than CCC for the collective license of the Content into the Assessment Market and (ii) revenue payable from licensing the Content directly to third parties for use in their products in the Assessment Market.

2. **Additional Royalties Generated by Seller:**

2.1 The parties acknowledge that Seller's relationship with CCC under the ACLSA as of the Effective Date is non-exclusive and Seller retains the right to generate Additional Royalties independent of CCC. The parties also acknowledge that of the Effective Date, Seller has not elected to generate Additional Royalties, but Purchaser shall have the right to generate Additional Royalties from the Existing Content independent of CCC pursuant to Section 3.

2.2 Seller may at its discretion license the Existing Content to generate Additional Royalties from the Assessment Market. If Seller licenses the Existing Content for use in the Assessment Market via a third-party collective licensor other than CCC, Seller shall be entitled to 25% and Purchaser shall be entitled to 75% of such Additional Royalties, net of the collective licensor's

administration fee. If Seller licenses the Existing Content for use in the Assessment Market directly to a third party, Seller shall be entitled to 25% and Purchaser shall be entitled to 75% of the gross revenue from the direct license. Seller shall notify Purchaser of such Additional Royalties on an annual basis commensurate with CCC's reporting schedule and shall pay Purchaser's share of such Additional Royalties no later than 60 days after CCC releases its annual report.

2.3 Seller retains the right to use the Content royalty-free in connection with the creation of its own products unrelated to the Assessment Market.

2.4 Seller may at its discretion add New Content to CCC for license under the ACLSA. Seller shall be entitled to 25% and Purchaser shall be entitled to 75% of the royalties, net of CCC's administration fee, attributable to such New Content under the ACLSA.

2.5 Seller may at its discretion license New Content to generate Additional Royalties from the Assessment Market. If Seller licenses the New Content for use in the Assessment Market via a third-party collective licensor other than CCC, Seller shall be entitled to 25% and Purchaser shall be entitled to 75% of such Additional Royalties, net of the collective licensor's administration fee. If Seller licenses the New Content for use in the Assessment Market directly to a third party, Seller shall be entitled to 25% and Purchaser shall be entitled to 75% of the gross revenue from the direct license.

3. **Content Escrow and Additional Royalties Generated by Purchaser:**

3.1 Seller shall deposit with an escrow agent agreed upon by the parties a digital copy of the Content ("Escrowed Content") in the same format as delivered to CCC customers under the ACLSA. Seller shall update the Escrowed Content to add any New Content within a reasonable timeframe after addition of the New Content to Seller's digital asset management platform. Purchaser shall at all times maintain access to the Escrowed Content.

3.2 Purchaser shall have the right in its discretion, solely within the Assessment Market, to license the Escrowed Content and engage third parties to license the Escrowed Content to generate Additional Royalties independent of CCC. Purchaser shall also have the right to provide the Escrowed Content to CCC for distribution through the ACLSA if for any reason Seller is unable to provide access to the Escrowed Content to CCC and its customers.

3.3 Purchaser shall give Seller reasonable advance notice of each instance of use of the Escrowed Content and provide Seller with reasonable assurance that the Escrowed Content in each such instance is only being licensed into the Assessment Market. If Purchaser engages third parties to license the Escrowed Content to generate Additional Royalties independent of CCC, Seller shall cooperate with Purchaser in issuing the license. If the license is issued via a third-party collective licensor other than CCC, Seller shall be entitled to 25% and Purchaser shall be entitled to 75% of such Additional Royalties, net of the collective licensor's administration fee. If the license is issued directly by Purchaser to a third party, Seller shall be entitled to 25% and Purchaser shall be entitled to 75% of the gross revenue from the direct license. All such Additional Royalties

shall be reported on an annual basis commensurate with CCC's reporting schedule and payable to Seller no later than 60 days after CCC releases its annual report.

Each party is signing this agreement on the date verified by its electronic signature certificate.
